

SOFTWARE DEVELOPER - OPEN SOURCE

Context of the job:

With over 2100 employees, Cegeka is one of the most important ICT providers in Benelux. We develop, implement and manage IT applications and infrastructures for medium-sized and large organizations. We overcome challenges for clients in the healthcare, social security, retail, public, industry, logistics and financial sectors. Customers use our services to implement and integrate IT infrastructures, managed services, outsourcing, user support, desktop management, the development and implementation of applications, technical support and consultancy. With our own data centers in Hasselt (BE), Leuven (BE) and Veenendaal (NL), we are ready for the future and for new business models, and so are our customers. As well as the Belgian domestic market, Cegeka also has branches in the Netherlands, Poland and Romania, where we have subsidiary companies for remote management and software development.
