Producătorul american de soluții informatice pentru sectorul financiar-bancar, Misys Banking Systems se bucură de peste 2.000 de clienți în peste 130 de țări. Aici vei putea realiza o creștere exponențială în carieră și vei avea acces la programe de formare profesională, timp în care eforturile tale recompensate pe măsură.

Noi credem că totul începe cu talent. Fiind una dintre cele mai mari și cele mai dinamice companii de software din lume, suntem mereu în căutare de oameni cu aptitudinile, experiența si atitudinea potrivită pentru a ne permite să ne îndeplinim visul: de a face lucrurile care contează cu adevărat și de a fi admirați pentru asta.

Associate Software Engineer FusionCapital Sophis

Location: Bucharest, RO

Job Type: Full Time

The successful candidate will be a motivated individual with a desire to achieve exceptional results in the financial software industry. We are looking for someone with a 'can do' attitude, who enjoys being a contributing member and who thrives on the challenges that working in a fast-paced dynamic environment can bring, someone who can dive in and help us to release outstanding software.

You will be first trained to our product and domain, to our methodologies and to our processes through training sessions, exercises and then through Care & Maintenance activity. Then, you will participate to development of new Summit functionalities. Integrated in a team under responsibility of a Team Leader, coached by senior development engineer, you will work closely with Business Analysts, Quality Assurance Team and Support Engineers across our different centers around the world.

Responsibilities:

- Work with the development & product management teams to improve the Summit product

- Perform Care and Maintenance

- Implement new features as specified

- Respect high level coding and design standards

- Investigate technical and functional defects and propose adequate solutions

Requirements:

• A master degree in computer science or equivalent work experience

• Strong C/C++ skills (including OO and STL)

• Good spoken and written English

• Good Unix or Windows skills

• SQL / Java / QT

• UML skills / Design Patterns

Cum aplicați?

- Vă puteți depune CV-ul la adresa: EuropeRecruitment@misys.com

- Doar candidații selectați vor fi contactați
