PHP Developers

Responsabilitati:

What are we looking for?
• Software developers for web sites (mostly PHP) that enjoy challenges, work hard, ask
questions and pay attention to details, learn new things or technologies and apply them creatively
to solve the problems at hand.
• Do you know other languages but want to learn something new? Are you at the start of your
career and highly motivated? You can still apply.
• We hire for attitude and train for skills.

Knowledge some of the following is a plus:
• minimum 3-4 years PHP experience
• Smarty
• OOP
• JSON/XML handling, communications with web services (HTTP, REST)
• MySQL, MS-SQL
• jQuery, AJAX

Your responsibilities:
• Include everything related to code: write it, debug it, test it before sent it to QA.
• We like you to challenge us, think of better solutions or designs, and tell us how can we
improve our environment, participate in multiple projects, share your knowledge with the others,
and be an excellent team player.
