

Magento Developer

INNOBYTE is looking for a **Magento Developer** fluent in e-commerce web technologies for our Bucharest office. The goal of this position is to build customized eCommerce sites on Magento platform (Community Edition and Enterprise Edition), for worldwide customers.

Consider this a challenge to sharpen your skills as an individual and to join one of the most dynamic new industries!

Your Responsibilities:

- Work in a great team together with Project Managers, Web Developers, Front End Developers, Quality Assurance Engineers and System Administrators
- Analyze client business requirements and recommend innovative solutions / provide estimates when needed
- Collaborate with the team in order to understand the client needs and communicate project progress
- Determine the best approach to solving complex business problems with technology and write great & documented code to accomplish this
- It is expected that you will be passion driven with a sharp attention to details, especially for embracing new technologies (like Apache SOLR, Varnish, MongoDB, Node.js)

Job Requirements:

- Experience working with Magento platform (preferably a completed project, module development or a theme integration)
- Proven PHP experience and great knowledge of OOP in PHP5
- Solid background in working with MySQL database
- Experience working with a PHP framework (preferably Zend or Symfony 2)
- Good knowledge of Javascript (jQuery, Knockoutjs, underscorejs, RequireJS, prototype)
- Basic Linux knowledge

Nice to have:

- Experience working with a version control system such as GIT
- Experience with PHPUnit
- Experience with Elasticsearch or SOLR
- Experience with Web services, XML, AJAX and integration with 3rd party providers like Facebook, Twitter, Youtube, Google
- Ability to analyze and troubleshoot staging and production implementations, security and performance
- Fluent with Linux

You will have:

- Competitive salary aligned with your skills and experience
- Private health subscription
- Extra free days each year
- Breakfast with your colleagues
- Fresh fruits every day
- Team buildings
- Workshops and trainings

- Support for obtaining certifications
- Relax room with Xbox, darts and more

*If you think you find yourself in the description of our **Magento Developer** position do not hesitate to apply for this job. We are looking forward to meeting you!*
