

Mobile (Hybrid) Developer

INNOBYTE is looking for a **Mobile Developer** fluent in Javascript and/or Typescript and general web technologies, ideally with existing AngularJS / Ionic Framework experience for our Bucharest office.

The goal of this position is to build customized mobile hybrid solutions, on Angular JS 4 (Ionic Framework), for worldwide customers.

If you have never worked with hybrid platforms before, consider this a challenge to sharpen your skills as an individual and to join one of the most dynamic new industries!

Your Responsibilities:

- Work in a great team together with Project Managers, Mobile Developers, Quality Assurance Engineers and System Administrators
- Analyze client business requirements and recommend innovative solutions / provide estimates when needed
- Collaborate with the team in order to understand the client needs and communicate project progress
- Determine the best approach to solving complex business problems with technology and write great & documented code to accomplish this
- It is expected that you will be passion driven with a sharp attention to details, especially for embracing new technologies (like Firebase, Neo4J, Elasticsearch, MongoDB, NodeJS)

Requirements:

- Proven Javascript or Typescript experience
- Solid background in working with SQL database (preferably MySQL)
- Experience working with a Mobile hybrid framework (preferably AngularJS 4)
- Basic MAC OS knowledge
- Working with a version control system (preferably GIT)

Nice to have:

- Experience working with NodeJS and Express
- Experience working with Firebase, Neo4J or Elasticsearch
- Experience with Web services, XML, AJAX and integration with 3rd party providers like Facebook, Twitter, Youtube, Google, payment providers, etc.
- Ability to analyze and troubleshoot staging and production implementations, security and performance
- Fluent with MAC OS

Benefits:

- Competitive salary aligned with your skills and experience
- Private health subscription
- Breakfast with your colleagues
- Extra free days each year
- Team buildings
- Workshops and trainings
- Support for obtaining certifications
- Relax room with fussball, Xbox, darts and more

*If you think you find yourself in the description of our **Mobile Developer** position do not hesitate to apply for*

this job. We are looking forward to meeting you!
