

# Senior PHP Developer - Business Intelligence | Bucuresti

## Responsibilities:

- Development of new applications using advanced technologies.
- Maintain, support and improve complex intranet applications:
- Reporting, ERP and CRM applications.
- Production tracking applications.
- Bug tracking applications.
- Research and apply new technologies.
- Various custom applications for specific needs in support departments (Financial, Production).

## Requirements:

- Strong PHP and MySQL skills.
- Fluent in English.
- Very good communication skills and ability to integrate quickly in a team.
- Strong analytical skills.
- Self motivated and resourceful person.
- Ability to work as a team player, with initiative and openness.

Nice to have:

- Knowledge of Java / noSql solutions / columnar databases is a big plus.
- Knowledge of OOP skills is a big plus.
- Knowledge of software design patterns is a big plus.
- Knowledge of Zend Framework is a big plus.
- Project management skills are a plus: ability to plan, estimate deadlines.

## Why this job is cool:

- We do real applications, not web-sites. We make scalable, distributed decision support systems with rich self-service interfaces and complex logic.

You'll become a data warehouse expert, and you'll be able to play with huge Tera - Petabyte sized databases, like no-where else in Romania.

- You'll not be only a php / mysql dev. You'll have the chance to learn many other technologies like: Java / C# / Python / Javascript / Data warehousing / Hbase / Vertica / Infinidb / Hadoop / NoSql databases / Fox pro (sorry, this was a joke) and everything that is new and cool.

- Big international team with experienced developers, with a friendly attitude.

- Freedom to speak, think and express your ideas.

- We do a lot of cool, complex and interesting tasks. Every day you will have something new to learn and we have a focus on employee's personal development. The tasks are not limited only to writing functions or classes. You will be a part of each project from initiation to delivery.

**Benefits:**

- Motivating salary and a merit based pay system;
- Lunch tickets;
- Medical insurance package, in partnership with Regina Maria Clinic;
- Increase your knowledge by working in an experienced and professional environment;
- Get the chance to work in a multi-national team;
- Supportive working climate, a young and dynamic team with a free communication style and also the possibility to make outstanding performances fairly rewarded;
- A modern office building including: cafeteria with hot food open during working hours, gym facilities, free for employees, including massage;
- Relaxation area with pool tables, ping pong tables, darts, foosball;
- Free kickboxing classes for employees within office building;
- Free dance classes for employees within office building – beginner and advanced groups;
- Free access to football court and basketball court – 2 hours, once a week, both courts are close to the office.
