Senior PHP Web Developer

INNOBYTE is looking for a Senior PHP Web Developer fluent in PHP and general web technologies, ideally with existing e-commerce development experience.
The goal of this position is to build customized e-commerce platforms, on Magento or Symfony 2, for worldwide customers.
If you have never worked with e-commerce platforms before, consider this a challenge to sharpen your skills as an individual and to join one of the most dynamic new industries!

Responsibilities:

* Work in a great team together with Project Managers, Web Developers, Front End Developers, Quality Assurance Engineers and System Administrators

* Analyze client business requirements and recommend innovative solutions / provide estimates when needed

* Collaborate with the team in order to understand the client needs and communicate project progress

* Determine the best approach to solving complex business problems with technology and write great & documented code to accomplish this

* It is expected that you will be passion driven with a sharp attention to details, especially for embracing new technologies (like Apache SOLR, Varnish, MongoDB)

Requirements:

* Proven PHP experience and great knowledge of OOP in PHP5

* Solid background in working with MySQL database

* Experience working with PHP frameworks like Symfony 2 or Zend

* Good knowledge of Javascript (preferably jQuery)

* Experience working with a version control system such as GIT/SVN/Mercurial

* Fluent with Linux

Nice to have:

* Experience with Web services, XML, AJAX and integration with 3rd party providers like Facebook, Twitter, Youtube, Google

* Ability to analyze and troubleshoot staging and production implementations, security and performance

Benefits:

* Competitive salary aligned with your skills and experience

* Private health subscription

* Breakfast with your colleagues

* Extra free days each year

* Team buildings

* Workshops and trainings

* Support for obtaining certifications

* Relax room with fussball, Xbox, darts and more

*If you think you find yourself in the description of our **Senior PHP Web Developer** position do not hesitate to apply*

for this job in the right form. We are looking forward to meet you!
