

## **Symfony Developer**

INNOBYTE is looking for a **Symfony Developer** fluent in PHP and general web technologies, ideally with existing e-commerce development experience, for our office in Bucharest, Romania.

The goal of this position is to build customized solutions on Symfony, for worldwide customers. If you have never worked with e-commerce platforms before, consider this a challenge to sharpen your skills as an individual and to join one of the most dynamic new industries!

### **Your Responsibilities:**

- Work in a great team together with Project Managers, Web Developers, Front End Developers, Quality Assurance Engineers and System Administrators
- Analyze client business requirements and recommend innovative solutions / provide estimates when needed
- Collaborate with the team in order to understand the client needs and communicate project progress
- Determine the best approach to solving complex business problems with technology and write great & documented code to accomplish this
- It is expected that you will be passion driven with a sharp attention to details, especially for embracing new technologies (like Varnish, MongoDB, Node.js)

### **Job Requirements:**

- Experience working with Symfony 2 or Symfony 3
- Proven PHP experience and great knowledge of OOP in PHP7 and PHP5
- Solid background in working with MySQL database and Memcache
- Experience with bundles and composer
- Understanding Symfony internal logic
- Experience in distributed systems
- Basic Linux knowledge
- Working with a version control system (GIT)

### **Nice to have:**

- Symfony 2 or Symfony 3 certification
- PHP7 or PHP5 certification
- Experience working with PHPUnit
- Experience working with React
- Experience with Web services, XML, AJAX and integration with 3rd party providers like Facebook, Twitter, Youtube, Google, payment providers, etc.
- Ability to analyze and troubleshoot staging and production implementations, security and performance
- Fluent with Linux

### **Benefits:**

- Competitive salary aligned with your skills and experience
- Private health subscription
- Breakfast with your colleagues
- Extra free days each year
- Team buildings

- Workshops and trainings
- Support for obtaining certifications
- Relax room with Fussball, Xbox, darts and more

*If you think you find yourself in the description of our **Symfony Developer** position do not hesitate to apply for this job. We are looking forward to meeting you!*
