

Web Developer (PHP/IT Consulting) | Bucuresti

We're looking for creative and cool PHP developers with the get-things-done mentality. If you like creative and challenging environments, apply now!

We're searching for heroes with these requirements:

- Good level of English;
- Good knowledge of object oriented PHP 5 development (PHP frameworks are a plus);
- MySQL skills (replication, normalization and partitioning are a plus);
- JQuery/Javascript skills are a plus;
- Brief know-how of NoSQL databases are a plus (eg. Cassandra, Redis, etc.);
- Linux knowledge are a plus;
- Self motivated and resourceful person;

You'd have the following responsibilities:

- You will be part of a growing team of Web developers that write real-time, real-life applications and services for our data analysis needs, applications that get used by millions of users worldwide.
- Develop, maintain, support and improve complex web applications:
- Reporting and data analysis applications;
- Real-time data analysis applications;
- Custom web services for production requirements and critical systems;
- Research and apply new technologies;

Why join the heroes:

- We do real applications, not web-sites. We make scalable, distributed decision support systems with rich self-service interfaces and complex logic;
- You'll not only be a PHP/MySQL developer. You'll have the chance to learn many other technologies like: Java/C#/Python and everything that is new and cool;
- You'll get a chance to work with the latest NoSQL technologies and learn;
- Big international team with experienced developers, with a friendly attitude;
- Freedom to speak, think and express your ideas;
- The tasks are not limited only to writing functions or classes. You will be a part of each project from initiation to delivery;
- No ties, no corporatist thinking, no bossy attitude.

Benefits:

- Motivating salary and a merit pay system;
- Lunch tickets;
- Medical insurance package, in partnership with Regina Maria Medical Center;
- The opportunity to work and learn in a professional environment;
- We offer a supportive working climate, a young and dynamic team with a free communication style and also the possibility to make outstanding performances fairly rewarded;
- A modern office building including:
- Cafeteria with hot food open during working hours;
- Gym facilities, free for employees; massage is an option!
- Relaxation area, with pool tables, ping pong tables, air hockey, darts, foosball.
